Is this really what the prior administration has done to utilize their fiduciary powers on us as a community that cares ???

#lynchmob #ceaseanddesist

I know the current board doesn't have access as it was told directly by asking but we are awaiting finalization of attorney matters that were imposed that aren't being acted upon solely due to either fraud or just a means of harassment from the two individuals who I will name as

Gio Torres and Mariana Castillo of 348 Walpole Loop... to which many of their actions have been recorded and regarded as such

I'm sure many in the community have been subjected to stories of such from sources that aren't checked to know either being truthful other than my own proof

how did Florencia come up with this as she wasn't captive at the meeting as the secretary - let alone maybe for only ONE this year??? nobody present for January, so February was a meeting full house- and March with 3 showing attendance - and MINUTES haven't even been OFFICIATED for record since??!? because it was stated they weren't approved??? yet so much seems to go on outside the governing of the board - yet they focus squarely on things in their personal capacity - wait for my latest video releases

It never ceases to amaze me at how much the HOA board makes up matters to keep things as trivial to anyone to assure you will not create indifference to their agenda, despite whether the instances of their actions lead to unlawfully acting or plain unethical, from code infraction to invading your privacy - you think by my expressing for everyone to see might discourage their actions but I'm actually helping the board by keeping you feeble and at the capacity of inactive so they can continue their antics. This excerpt from their own documents states of you engaging in disruptive behavior can lead to your EVICTION from the meeting (not the best choice of words) or also even escorted out by law enforcement officer.

Well let me give you my NICKEL worth - at that meeting, I was accosted by Jeanine as I came to the building, it means she yelled at me to not touch her car, I actually only walked along side it as she parked in the handicapped spot, she has a placard and I looked to verify it was current ((there has been concern to unethical parking lately) which wont ever be discussed at a meeting) I never touched her property or ever violated her property but because she threatened to call the police before everyone present, and she was in continued accusations that were questionable to any validity that I took to on myself to call Polk County Sheriff that night, and waited about 45 minutes before any officer even arrived on the scene (I can provide document for record, as it was not mentioned in their minutes) The issue being that the board as a group of three drew accusation of activity they fabricated of my receiving transmissions of the meeting, it was already once answered by a phone call on it but apparently it doesn't stop there but at this meeting (lets call it harassment, it wont be the 1st time) with them even going as far t as to express to everyone at the meeting prior that they have video but what exactly do they have video of (cant be anything because what are trying to prove) (Keep in mind they have access to see this posting as everyone in the group) Bottom line is they created the disturbance to me who doesn't even respond to them or is even inside their little Homeowners meeting but they raise questions to my wife to answer their accusations in front of others. My concern was that I couldn't see my wife inside because

My concern was that I couldn't see my wife inside because they cover up the front door so NO ONE can see inside while they operate the meeting that members of the board are reluctant to even actively participate in

And while everyone else has to knock to gain access because the door is locked , I discovered your previous resigned president Lee Hulbert just waltzed right in using he personal key fob he holds for access to the building (just another observation...)

Monthly HOA Meeting Agenda

March 12, 2024

All owners must sign up on the forms provided and only property owners may attend the meeting or speak. Property owners may address the board and speak for a period of three minutes for each item. Each owner shall wait to be recognized. Owners must speak in order of the agenda. Owners must speak in order of decorum and not engage in any disruptive behavior. Any disruptive behavior will not be tolerated and will result in one warning followed by eviction from the meeting or escorted out of the meeting by a law enforcement officer.

If a speaker is in the middle of a sentence when time is up, the person may finish before sitting down. The time guidelines ensure that others will have an opportunity to speak. Speakers may not allot their time to others. Members of the association may not bring up items that are not included in the agenda.

Owners may record the meeting by video or audio. Notification should be provided to the board prior to the start of the meeting. Transmission of the association meeting outside of the community center is not allowed at any time. At no time can anyone use their own equipment to be a means to stop the meeting. Any excessive noise, especially with recording equipment, may result in recording being directed by a quorum of the board.

As some may already be aware the caretakers of our community made a newer group page that's probably to cause seclusion and discriminate among those they choose - probably orchestrated by those that undermined the board

I'm sure their followers are tired and will show their allegiance , as it was evident it would come to them tired of being called out of their tactics - YET ANOTHER

#FACEBOOKBLOCKINGFUNCTIONS

THE Last board made a hate group before they felt legal problems because

Let it be known they can't override rules FACEBOOK has included under their terms of use

The President needs to study contract law and read a dictionary at some point , and please understand their fiduciary duty

They seem bent on gaining ground to do whatever they want and care less to operate under their governed statutes

It seems the 3 whole trees are still there
- I would kindly ask the HOA to have
them removed immediately since they
had no prior approval- apparently no one
called to arrange a pick up

You know yourself the HOA in itself has
always come after me for letting them
know their tactics are wrongful and yet
they keep trying to shut me up in some
form whether blocking me on social
media or trying to fabricate false claims
using people closely associated that
aren't on the board

Is FLORENCIA - the daughter of Christian
Martin- and is her mother also
FLORENCIA

So her name not FLORENCIA ?

I ask because they say she a homeowner
- but I think it's her mom not her

Someone on the board use two names -
home one name and the treasurer
another name

How this can be

They want to say I'm not a homeowner to

Someone came to the Office - Sunday 2/12 @2:30pm - says it's open Yet NO ONE is there - I did see the office person earlier as we spoke - I don't know what days they are open - but this sign may have confused others about ability to pay their assessments

Lee Hulbert - you were there even on Saturday- can you see about resolving this - I could only relay to Alfredo as I don't have Jessica Salmeron or Jessica Segura's info to see if she can make changes to the site page as I'm blocked from Facebook by the current administration... why!!? I actually help a lot of people within the community- A LOT OF THEM !!!

I'll further post all public activity here from this point forward, for all interested ... Hopefully soon the closing of the pool since August 2023 will soon be opened and all the rotten entities regained to proper use, what would have been done had I not exposed the BOARDS negligence to tend to maintain anything, hopefully they woke up and want to start fresh

Only thing I could catch sight on as to anything I would cover in the Wellington Community Yard Sale was an enclosed trailer at 416 Burgoyne Loop but that's obviously not for sale it's been there for over 3 weeks , so aside from that I didn't see anyone acting or having endeavor to participate in the yard sale this weekend
That's not to say presidente Alfraido on Glasgow CT does have 2 items left unattended maybe for the taking and lots of cut brush if you need kindling for camping all throughout But until then I think there's not much at all

Seen the repairs made on the rebuild pavilion in our park - after they pulled down the caution tape, which I would think it needed to have caution tape ever since they thought of repairs, if it even once considered an issue about liability to work on it - but aside from logistics of the matter that always go unseen. We now have a pavilion back available for use - I hope - it does still need to be painted - is that also another era down the road or a project still left...?

WHOAs of Wellington - Get your news directly by coming to the meetings or if you don't like meetings stand outside, I'm sure you'll feel welcomed by the drawn blinds and covered windows along with the intentional blocking view of the door they now utilize ;) - but do come!!! maybe use your pool fob and unlock your way in so you don't have to wait for someone to open the door!!! - Cheers !

Paparazzi... I know I'm fairly popular amongst those of the HOA , but when I have to tend to my dogs and then I take notice of my surroundings , it just seems appropriate for board members or previous staff to stop stride and break out their cameras in hopes to capture a moment with their famous Superstar

I'm fairly friendly and willing to help out anyone but please just ask and I'll give you an autograph or a picture with me, except when with the dogs because they need to use the restroom and get anxious

Although I wish to not receive correspondence by mail with demands with ultimatums lending me accusations of falsehoods from anyone or anything thing Comprendre?

This evolved action to remove my wife from the HOA board because it was said to be privy information, but I gathered much of the information directly as public record from the state representative for our area by email and phone, so apparently it was supposed to be on the down low. Now since my wife was removed from the board because the outbreak of the community in regards to the HOA's negligence it now seems they've resorted to come after me by any means possible to keep me from having access to the meeting (Which I don't attend, just accompany my wife and stand outside making sure they don't scold her like they have) but they want to rid me irregardless of any wrong doing they do and still keep popping up accusation at meetings and on

... continue, and now they reached a greater tie to use

any action they take even if the cost of a stamp is

So much is it that anyone usually tied into the HOA board usually has some facilitation of allowing something to benefit themselves

Such as... sectioning off HOA property and claiming

to pay for that property as taxes while they don't pay any taxes on it and claim to add value to their property

But aside from that this is our pool, currently closed by the state for multiple accounts of violations, pool rail, expired drain covers, not maintained by a licensed pool contractor, not properly logged, along with much needed repairs that are supposed to be underway.

But many ask about it but don't attend meetings, and as long as the HOA boards up the windows during meetings with drawn curtains and shades most won't feel comfortable coming, especially when they act in a way to make people seem like hooligans, even though this board exists only because One sought to leave his seat as a vice president, then have the president resign, letting another take president while this now person was vice president but wanted to be president and everyone else did to, so they all did nothing until the last gave up and allowed the next person who left his VP spot to be president ... what homeowners should worry about when things go awry and the concern is no longer something to be questioned because it's not observed openly like this is shown - PCSO is aware - this goes beyond solicitation - under pressure is a life unimagined

Got Word our Wellington Homeowner's Association of Polk County gave JP Irrigation and Landscaping the job to tap a NEW line for water so they won't be in violation for using hoses to fill the pool, but want to Congratulate JOHN PAWLOWSKI as a good neighbor and resident homeowner to have received the job.... I expect the best - If you need new installation plumbing be sure to Contact him (407) 803-3433 for your plumbing needs - I said I'd help refer him when I could

Also allow me to also pass along FRANK GAY he's local and is a bigger company if you'd like another great licensed plumber & HVAC 4073299808

Howdy all my fellow Nextopians:

I have a concern as to what was mentioned to me of an occurrence that happens about a month ago in our community

The father of two children came to pick up his children at the park within, and he was confronted by someone who tried to stop him from leaving with his own children, he told me that this person was throwing a party at the clubhouse and expressed they were on the board, and he wasn't leaving with them... Now understand that one many thoughts come to mind, your setting precedence as a board member, and you don't know who are the parents of the children that reside within the community

As well as who is stated as the 3rd party for anyone to involve themselves in your family affairs

I can account of seeing children playing by themselves to wonder if an adult was present and my concern was to ask the lady walking her dog to check and see only to find the grandfather sitting out of sight in the shade

But to have someone tell you you aren't taking YOUR OWN KIDS WITH YOU !!!?

WHERE DOES THIS HOA GET ITSELF THE GALL TO MAKE UP IT'S OWN LAWS AND GOVERNANCES, OR EACH IN THEIR OWN CAPACITY TO DO THESE OVER STEPS OF THEIR POSITION NO ONE PLACED THEM

GET OVER YOURSELVES

PS the water left on at the pool is filling from the spigot - the dues paid for new plumbing and I am aware of the inspector coming around - he might cite another violation on the pool before it ever gets opened up from the previous violations - just a heads up

To Whom It May Concern,

I am seeking an injunction against Charles A Muller, of 403 Cornwallis Dr., Davenport, FL 33897. I am requesting this due to his ongoing cyber bullying and his relentless social media attacks against the HOA of Wellington.

He made a post of me on more than one Facebook page, with a link to a YouTube video, from his security footage, showing me with my hand in the air and made statements about my gender and that I'm cuckoo and also with a #HitlerNeverTriedThisHard. I now feel threatened as this comes across as I'm depicting a specific salute. I, in fact, made a mistake by flipping off his camera because he has caused much duress and I was being reactive to his policing of the handicap parking space.

I also got information that he has been speaking to a neighbor and bad mouthing me and my neighbor doesn't want to get involved, but would also like him to stop showing up at his door. On more than one occasion he and his wife have driven by my house and slowed down while I was outside. If he sees anyone he will try to talk to them and bad mouth the HOA. He has done that with myself and my next door neighbor before I even joined the board.

I will attach the posts I have that make me feel threatened. I have expressed my wanting to leave the board because this has gone too far and needs to stop.

Thank you for your time and consideration,

Disgusting for any and all who have dealt
with Judges (or anyone in seat of
authority) over stepping their power .
YOU the people have allowed them to
stay seated but you have the ability to
REMOVE them and retake proper rules -
unfortunately It's take this situation to
bring to the forefront - regard of who is
represented here it is YOU who is gravely
affected

Much like your HOA- we are the only
HOA in the area with as many problems
connected to the fault of the board's
negligence and removing people that
have concern with proper Understanding
of the statutes and regulations that they

Went on the way to help a friend and we browsed along the community because I saw this pretty house done up and I wanted to nominate it for yard of the month

But as we made it around Walpole we spotted a board member with their dog in the their yard and not so much a peep but then up pops up her hand as I noticed her gesture with the middle finger at us much like she does in the footage shown , it just amazes me how these people run on the board and have a lack of regards for the people within the community .

These people usually are voted in but in this case they just come in and kick out anyone they don't want for any reason if a reason at all... If it's their by laws they operate to eject a board member why don't they also follow the same procedure to vote them in

Let alone have them understand the by laws and operate under them as they should or be subject to accountability if not

To Honorable Court Judge,

April 18, 2024

We, the Wellington Homeowner's Association of Polk County are requesting an injunction against resident, Charles A. Muller of 403 Cornwallis Drive. Mr. Muller has been harassing the HOA Board for over six years with constant daily social media posts and intimidating the office women who work for the HOA.

Mr. Muller harassed office administrator, Tavia Smyth in 2018 and she had to call the police for his stalking her on Facebook and intimidating her in the office. She eventually quit.

In 2020, Mariana Castillo, replaced Ms. Smyth and was also harassed by Mr. Muller on a regular basis. She obtained a restraining order against him through this court (see attached). She eventually quit and moved.

In 2022, Florencia Martin was also harassed by Mr. Muller and his wife, Erin Van Dalen. (see Testimonial)

Mr. Muller has admitted in emails that he enjoys harassing HOA Board members. (see attached) He does not work or apparently do anything else except criticize and harass the HOA.

In the past 3 months, Mr. Muller has made over 70 posts on different social media platforms accusing the HOA Board members of various things and constantly complaining and criticizing. People have quit the Board because of his actions and others are afraid to join for fear of him harassing them.

We ask today for a temporary injunction until a court date is set on which we can present the proofs of his obsessive continuous harassment.

Thank you,

Wellington HOA Board members

Alfredo Perez

I, Florencia Martin, am deeply concerned about the ongoing harassment and negative behavior exhibited by Charles Muller towards me and my family. As a resident and former office administrator of the HOA, I initially encountered no issues. However, Mr. Muller's escalating desire for control over handicap parking spaces and his consistent dissemination of negativity on community platforms have created an atmosphere of fear and discomfort for me.

Mr. Muller's actions, including his false and defamatory posts targeting me and my household, as well as his spouse's involvement in HOA affairs, have significantly contributed to a toxic environment within our community. Their apparent unhappiness and penchant for causing distress to others are evident, and I am deeply troubled by the potential consequences of Mr. Muller's actions, especially considering my responsibility as the primary caregiver for my children during the day.

I fear for the safety and well-being of myself and my family, particularly in light of the possibility of Mr. Muller's behavior escalating beyond online harassment. His consistent presence and scrutiny feel invasive, leaving me constantly on edge and concerned about potential negative repercussions, including the impact on my husband.

Despite my efforts to maintain peace and avoid confrontation, Mr. Muller's relentless harassment persists, creating a sense of helplessness and isolation. I implore the necessary authorities to address this situation promptly and decisively to ensure the safety and security of myself and my family within our community. All I desire is to live without fear and to provide a safe and nurturing environment for my loved ones.

A handwritten signature in black ink, appearing to read 'Florencia Martin', with a stylized flourish at the end.

To Whom It May Concern,

We, the homeowners and/or residents of the Wellington Community of Polk County, are asking that an injunction be issued to Charles A Muller, residing at 403 Cornwallis Dr. Davenport, FL 33897. We are requesting action to be granted to stop his ongoing verbal and social media attacks in the form of harassment, defamation, antagonization, nuisance, obnoxious behavior, and emotional distress to the homeowners' association and its members.

Because of his continuous barrage on the HOA for at least the last six years, we have sent a certified cease and desist letter, which he refused. His behavior has caused several members of the board to step down in the past and most recently. His persistent engagement in conversations to degrade the board to anyone that he sees in the neighborhood as well as on social media is ongoing and disruptive.

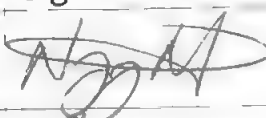

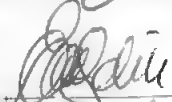

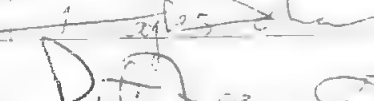

Putting a stop to his heinous behavior will allow the HOA to function as it was meant to and keep these volunteer positions full.

Sincerely,

Wellington HOA

To who this may concern:

I am writing this letter to express my concerns about a resident, whom is not a homeowner of the Wellington, and his antics towards the HOA, my wife as well as me. Most recently, I was informed about a video he posted on Youtube. It was a recording he made while standing out the clubhouse while there was a HOA meeting being held. He recorded my wife, who was standing inside in front of the door to the clubhouse during the meeting. He was on private property and did not have my authorization nor my wife's to record us. While he was recording, he was making comments about the Administrative Officer and that she was running a daycare center while performing her duties. My wife asked him if he could be quite since she was unable to hear the meeting with him talking just outside the door. Their conversation was appearing to get a little heated and that was when my wife asked if I could come outside. The meeting had to be interrupted so I could go assess the situation. This was on his recording that he posted as well. Florida is a two party consent state and my wife and I did not consent to him posting the video on Youtube. I also feel that the title of the video is a racist attack against my wife and I. The title of his video was named "Big Apple Dumpling Gang". Because we both came from New York and that I am from Asian decent ? Before joining the HOA and while a member, Charles Muller has nothing but berate the Board and verbally attacked some of the members during his conversations with me. I discontinued all association with him after he

accused me of being a liar after an incident between his "wife" - Erin and the Administrative officer during "Bingo Night". I was not present in the clubhouse when the incident occurred and after I told him that I didn't not see what happened, he in turn called me a liar. I feel he is poisoning other homeowners with his views and his distaste towards the Board. I have seen his post and his comments on the "Nextdoor" app and it is very clear that he has a hatred towards the HOA board and Alfredo Perez.

Respectfully Submitted:

Phi Hoang

To whom it may concern:

When I first joined the board at Wellington I heard stories about Charley Muller. The president and the rest of the board all had these crazy stories. Quite honestly, I thought the other board members were somehow jaded. However, he sought me out when he found out I was on the board. I found Charley to be manipulative, abrasive, and well schooled in the art of threatening and harrassing. Charley started using social media to attack me. He was attacking other board members on social media. We all ended up putting a restraining order against him. Then the vandalism started. Dog excrement thrown in the swimming pool. Security equipment vandalized. Of course we could never prove who did it. But it stopped when we hired attorneys and threatened to sue him.

We lost a lot of qualified candidates over the years due to concerns about harassment. We spent a lot of homeowner money because of actions taken Charley.

thank you,

John Byrne

April 10, 2024

I was on the HOA Board in 2018-2019 and again now as of November, 2023. Ever since I first joined, Charlie Muller has been a problem for the HOA. He was always against anything that the Board wanted to accomplish. He has been obsessed with the HOA and constantly harasses and criticized Board members on various social media platforms. He doesn't work or do anything else but sit at his computer criticizing other people. He is not even a homeowner which makes his obsession truly confusing.

I first got on the Board in 2018 and was told that our office administrator, Tavia Smyth, had been harassed both in person and on social media by Charlie. She was afraid of him and filed a police report. She ended up quitting and was replaced by Mariana Castillo. Charlie also harassed her so much that she had to have a restraining order taken out on him. (see attached). The restraining order lasted for a year and there was no trouble from Charlie because he wasn't allowed to do anything in person or online.

We discussed putting a pool screen over the community pool. We were trying to promote our pool and someone began pooping or throwing poop into the pool at that time. That person did that 8-10 times. We hired police at first to secure the area, but that was costly and couldn't be permanent. By the time we installed cameras, the pooping had stopped. Nobody wanted to swim in it after that even with chemicals. Replacing the pool water would've cost \$5000.

In summer of 2021, the Board wanted to install a sprinkler system. Charlie was vehemently opposed to this because it was next to his house. After the system was installed, within the next few days, the main electrical box controlling the sprinkler systems was completely ripped apart costing the Board and community thousands of dollars in both trying to find the problem, then to fix it. There was no proof it was Charlie, but he was the only one against having sprinklers installed. (see attached)

Charlie also sent a letter to the County Clerk pretending to be the former HOA President Giovanni Torres. He was claiming one of the Board members, Jessica Salmeron used fraud to get her name on her home. Mr. Torres only found out about it because the Clerk's Office sent him an email back to confirm that they had received the complaint.

Since I have been on the Board this second time, Charlie has doubled his social media harassment efforts. He posts almost every day about people on the Board misusing funds, having their own agendas, being like Hitler, lying to the community and many other false claims. Nobody "likes" or comments on his posts because everyone knows he's crazy. However, it is discouraging to have this constant barrage of lies and harassment, especially since we are a volunteer organization.

People either don't want to be on the Board or have quit because of this one person. He stares in the window at meetings, he calls the police on people parking in the handicapped area even though they have the proper handicapped tag. Nobody wants him to direct his craziness towards them.

Charlie had continued to harass the former HOA President Giovanni Torres by sending him mail at his new home addressed, "Maricone Faggot". Giovanni did not want to write a letter since "Charlie has now finally stopped harassing me" and he "doesn't want to become a target again."

In my opinion, we could have a wonderful neighborhood if Charlie Muller would stop his social media rants against the HOA and best case scenario, move away. I hope the judge can find us some relief.

Thank you, Lori Place

To whom it may concern.

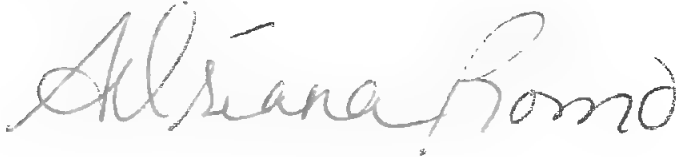

I, Adriana Romo, and my husband Alfredo Perez moved to Wellington in 2016. One day while doing yard work a neighbor was walking by and introduced himself as Charles Muller a neighbor from the street over. He said he could help; he drove his van to the back street to help us bring branches to the front yard. While there he went on about the HOA and their rules and how stupid they were. It was very strange to me because we had just met.

Our neighbor from across the way Mary L. Coder saw him at our home, and after Charles left, she came over and told us what a troublemaker Charles was to the HOA and warned us to be careful with Charles. At the time I did not know the whole story, soon after my husband joined the HOA as vice president. But when Alfredo became president the problems with Charles escalated.

And now I am always afraid for our safety, Charles has been harassing my husband in the HOA constantly, on social media on the street, and now I cannot even take walks with my grandkid, because of the fear of encountering Charles on the street. I have told my husband to always stay in touch with me while out doing HOA volunteering work. I am always on the edge, and Charles has taken my joy of living in this neighborhood.

Sincerely,

Adriana Romo
